

Redcar and Cleveland Borough Council
Planning Department

27th May 2015

Our Ref: Eston

**RE: 1no. 900kW Enercon E44 turbine on land at Eston, Sedgemoor Road,
Middlesbrough, Cleveland, TS6 0UA**

Dear Sir or Madam,

1. Planning Application

Please find attached herewith an application for planning permission submitted on behalf of The Future Energy Partnership (the applicant). The Application comprises of the following:

- Design & Access Statement (DAS)
- Planning Application Form - duly completed
- Site Location Map (1:2,500)
- Site Layout Plan (1:500)
- Elevation Drawing/Specifications
- Manufacturers Brochure
- Full Appendices including various specialist reports
- A cheque for the planning application fee in the sum of £385.00 has been posted by our office directly to the office of the planning authority.

2. Screening Request

Along with the submission of this planning application, we also wish to formally request from the planning authority a screening opinion for an Environmental Impact Assessment (EIA) under the Environmental Impact Assessment Regulations 2011, Schedule 2, Part 3 (i) in relation to wind energy projects which are to be screened for EIA if (i) the development consists of more than two turbines, or (ii) the hub height of any turbine exceeds 15 metres. In this instance the hub height of the turbine is 55m and therefore falls under the requirements of Part 3 (ii).

A screening request was previously submitted to the council on the 25th February 2015 (see Appendix 13 of the accompanying planning application), however Entrust was advised at the time by planning officer Claire Griffiths that insufficient information was provided. Claire recommended we request a screening opinion at the time of the full planning application submission which is now.

We look forward to receiving a decision by the planning authority in due course. If the planning authority requires any information or clarification with regards to any aspect of this planning application or request for a screening opinion, please do not hesitate to contact us at any stage during these processes.

Yours faithfully

Entrust Professional Services Ltd.
